

ELIMFILTERS®

Distributor Opportunity Brief

Paraguay Market Development

Reference: **PY-000001**

ELIMFILTERS is evaluating qualified companies capable of developing a durable local distribution operation around industrial, heavy-duty, fleet and equipment filtration.

What the relationship is designed to provide

Technical product intelligence, five asset-protection systems, commercial enablement, digital resources and structured market-development support.

What we evaluate

Territory coverage, import capability, warehouse capacity, sales organization, customer channels, relevant industries and ability to support recurring commercial volume.
